

## **KELLER GROUND ENGINEERING PTY LIMITED**

### **ENVIRONMENTAL POLICY**

Keller Ground Engineering Pty Ltd's accepts that its operations will inevitably impact on the environment. In doing so we commit ourselves to conduct our activities in a manner that respects the environment in which we work and will conduct our activities in a manner that protects and preserves this environment.

In doing so we will strive to:

- Use systems, procedures and products that minimise negative impacts on the environment
- Be aware of the real and potential impact that our activities have on the environment and identify and control potential hazards.
- Achieve zero environmental incidents
- Be aware of our social responsibility to the environment and leave the places in which we have the privilege to work in a healthy state.

It is further Keller Ground Engineering's stated objective to develop services and products with low environmental impact compared to traditional or conventional techniques to enable us to offer these to the market and thereby assist in the reduction and control of the environmental impact of proposed developments and constructions.

A handwritten signature in black ink, appearing to read "E. Friedlaender", with a horizontal line underneath the name.
